

Configure-to-order server builder, engineered & supported in Malaysia.

ServerWare designs, assembles, burn-in tests, and supports enterprise server platforms in-house — brand-agnostic hardware configured to each workload, backed by a local warranty. Independent builder since 2004; SuperMicro® partner since 2010.

COMPANY SNAPSHOT

Legal name Serverware Sdn Bhd
Registration 200401023762
Established 2004
HQ Subang Jaya, Selangor, Malaysia
Contact 03-5191 6328 · sales@serverware.com.my

WHAT WE DO

- Configure-to-order rackmount, GPU/AI, storage & edge servers
- In-house assembly, burn-in validation & QA
- Spec consultation & tender-compliant BOMs
- Local warranty, RMA & lifecycle support

BUILD SCOPE & PRODUCT FAMILIES

- Rackmount — 1U–2U compute for virtualization, DB & web tiers
- GPU / AI — inference nodes & workstations, CUDA pre-validated
- Storage — 2U–4U, SAN / unified, up to 24 bays
- Edge / Tower — compact low-power for branch & industrial
- Component upgrades — qualified spares & upgrade kits

SILICON & PLATFORMS

SuperMicro® AMD EPYC Intel Xeon
NVIDIA RTX / L40S DDR5 ECC PCIe 5.0 NVMe
10 / 25 GbE

WHY SERVERWARE

- Every unit configured by a real engineer
- 3-year local, in-house warranty
- Built, validated & supported in Malaysia
